

Your First Visit

From the minute you walk in the door at Periodontal Medicine and Surgical Specialists LTD and throughout your visit with us, you'll find an outstanding level of professional treatment from a team who genuinely cares about your health and comfort.

We encourage you to ask your doctor or patient coordinator any questions you may have. Our firm belief is that when patients fully understand all of their options, they are able to make more informed decisions about their health.

In order to be respectful of your time – and that of our doctors and team – we ask that you be on time for your appointments. Once you schedule your initial appointment, you will receive forms to finalize registration. Please complete these in advance of your visit. Alternatively, you can arrive 15-30 minutes early to complete the paperwork.

If you must cancel an appointment, please notify us by phone at least 48 hours in advance.

2. **Surgically-facilitated orthodontic therapy (SFOT)**
3. **Management of inflammatory periodontal diseases**
4. **Esthetic and regenerative periodontics**
5. **Oral medicine**
6. **Periodontal-restorative therapy**
7. **CBCT imaging**

We work in partnership with your general dentist, hygienists, other dental specialists, and medical colleagues for the betterment of your oral and overall health.

The health of your teeth and gums affects every aspect of your life. If you are in pain, embarrassed about your teeth, or unable to talk or eat properly, we are here to help you achieve and maintain good oral health. Working closely with your dentist, we treat more complex dental problems that not only threaten an attractive smile, but can also affect your overall health.

Inflammatory periodontal disease is among the chronic diseases of aging, which also include: Cancer, Osteoporosis, Cardiovascular Disease, Diabetes and Alzheimer's Disease. Research finds that periodontitis may affect as many as half of Americans over the age of 30.* While these facts support periodontal therapy as a medical necessity, we believe such care should be a part of personalized medicine. Periodontal Medicine and Surgical Specialists LTD identifies each patient's unique needs and creates an individualized plan of care that is personalized, preventative, predictable, and proven. Early intervention prevents the progression of periodontal and other inflammatory diseases.

Our periodontists have both the training and experience to help you achieve the best possible oral health.

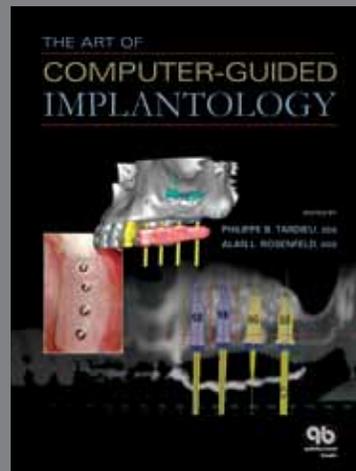

*Albander, JM. Underestimation of Periodontitis in NHANES Surveys. *J Periodontol* 2011; 82(3):337-341.

Our doctors, Alan Rosenfeld, DDS, FACD, and George Mandelaris, DDS, MS, are both board certified by the American Board of Periodontology.

Periodontal Medicine and Surgical Specialists LTD incorporates the most technologically advanced equipment to achieve the best possible results. Drs. Rosenfeld and Mandelaris are known for developing innovative approaches that are now adopted by others. They are highly-regarded opinion leaders who frequently contribute to the scientific literature and consult with industry manufacturers on dental implant and periodontal therapies. Our doctors have contributed multiple chapters to several textbooks that are recognized internationally. In fact, their book entitled *The Art of Computer-Guided Implantology* (Quintessence 2009) is regarded as the first implantology book of its kind in dentistry.

Alan Rosenfeld, DDS, FACD

George Mandelaris, DDS, MS

Our doctors are part of the attending medical staff at Advocate Lutheran General Hospital, and have unique privileges and opportunities to work with medical colleagues to treat more complex patient needs.

Periodontal Medicine and Surgical Specialists LTD has made significant contributions to the advancement of the fields of dental implantology and periodontology for more than two decades. At the core of our philosophy is a dedication to working in a collaborative atmosphere to save teeth and provide the most appropriate treatment for each and every patient.

Fees and Payment

At Periodontal Medicine and Surgical Specialists LTD, we make treatment recommendations based solely on what will give you the best outcome, not based on the limitations of an insurance policy or a revenue-based business model. We strive to help you receive maximum benefits from your insurance plan, and even have a staff member whose sole job is to help patients with filing insurance claims.
